**Letter of recommendation**

Dear Mr. Kraul,

It is my pleasure to share with you my recent experiences with the Company Konstruktor Konsalting, which has executed the fit out works for our shop in Retail park Stop Shop in Vršac. The same Company has also executed fit out works for our shop in Valjevo and Niš, both are Stop Shop Retail parks.

During the work on these projects Konstruktor Konsalting has shown excellent professional service, high quality and respect of deadlines.

In our company we have very high standards and strict brand and corporate rules. The company, Konstruktor Konsalting, has carried out the works in accordance with our standards and they have more than fulfilled our expectations. It is obvious that they are used to work with large Companies and that they have a lot of experience.

Their team is professional, easy to work with and always ready to help. I would like to point out that Konstruktor has full team of engineers that can provide execution design according to Company's standards as well as to control and organize works on the site on a highly professional level.

I am very satisfied with the executed works carried out by the company Konstruktor Konsalting and I would like to recommend them as highly qualified.

Sincerely yours,

Sašo Pocajt
